Malta Camp 2023 Silent Night

A little guide for tonight from Père Tanguy

1/Our Lady

Our silent night will begin with a Marial procession. That's not just a tradition of the international summer camp. Mary is the one who leads us to Jesus. Procession is made for remembering with our feet.

2/ Adoration of the Holy sacrament

That's the 2nd part of the night. We'll be invited to adore the blessed Sacrament. Jesus is really present in the host consecrated during the mass. It's a time to speak and to listen to him heart to heart.

3/ Silence

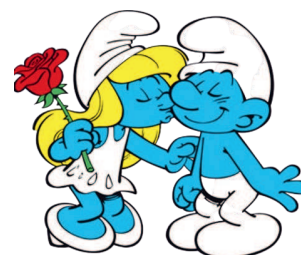

Silence is not only a condition for sleeping or having a rest. We can't listen to the one in front of us if it is too noisy around us. Elijah hear God in the light sound of the silence. God continues to speak to us in the silence. Let's open the ears of our heart.

4/ Reconciliation

For some of us it will certainly be the hardest aspect of the evening while for some it is the most awaited. What's the confession ? A big hug. A divine one. We all remember how the merciful father welcomed his prodigal son after he went in foreign countries to spend his money having a lot of fun. Is there any better comparison than these parable for the sacrament of reconciliation ? We are all prodigal sons and daughters of that merciful Father. And that father did absolutely not change the way he welcomed his children who went a bit too far from home. He wait for us. He says to us come.

Today, we want to give a special HUG to Dimitri and his transport team!
